SPI Software Announces Partnership with New Florida Client

Provides Resort Management Software for New Smyrna Beach Resorts

Miami, FL – March 2022 / Newsmaker Alert: [SPI Software](#), the leading provider of management-oriented software systems and solutions for timeshare resort developers and operators, has recently announced its partnership with Coconut Palms Beach Resort 1 and SuniSands BeachClub in New Smyrna Beach, Florida. SPI will provide resort management software for the 40-units at both resorts.

Coconut Palms Beach Resort 1 and SuniSands BeachClub are located oceanfront in New Smyrna Beach, south of Daytona Beach and close to Florida's Space Coast attractions. Resort guests enjoy unobstructed views of the Atlantic Ocean, white sand beaches with an old-style Florida beach haven atmosphere. [Glenn Eichmann](#) has been Resort Manager of Coconut Palms 1 for 15 years and SuniSands Beach Club for three, working with the resort's HOA's.

"The resorts boards and I are happy to be working with SPI to provide a much smoother check in and on-line experience, said Eichmann."

"We look forward to providing technology solutions for Coconut Palms," added [Lou Wolfson](#), Sales Manager, "SPI has the unique capability of handling all sized properties, large or small, like Coconut Palms and SuniSands. Our software implementation will include assistance with property management, reservations, bookings, maintenance fees, owners' financial obligations, and inventory control – everything they need in the management of their resort. After 44 years in the timeshare industry, we have learned that our software isn't just about superb technology; it's about helping people. That's what we are all about at SPI Software."

Added [Gordon McClendon](#), SPI Software CEO, "Since our formation in 1978, SPI Software has remained the primary supplier to hospitality properties by providing world-class software solutions and exceptional customer service. Our clients do not need to adapt their business to our software; we customize our software to their unique needs. Everything you could imagine you would need, has already been built over the last four decades, indicative of our flexibility to adapt to constant changes in software advancements."
